

2020 Young Scientist Award- Polymer Chemistry Congress 2020

Yavuz Selim SILAY

Designation: Chairman Department: Istanbul Consulting Group University: Istanbul Consulting Group Country: Turkey, E-mail: drysilay@yahoo.com

With the successful completion of previous conference, and we are getting a huge response from the speakers\attendees and that we happily announce that, we are organizing a conference on "Polymer Chemistry Conference" was held on June 4-6, 2018 within the most beautiful city of Osaka, Japan focusing with the theme of: 'Present situation and future perspective of Bio-polymers and Polymer Chemistry'.

Conference series LLC Ltd and its subsidiaries together with ImedPub Ltd and Conference Series Organise 3000+ Conferences across USA, Europe & Asia with support from one, thousand a lot of scientific societies and Publishes 700+ Open Access Journals that contain over 50000 eminent personalities, supposed scientists as editorial board members. This publishing house has been built on the base of esteemed academic and research institutions including polymer scientists, technologists, Chancellors/Vice Chancellors/ Promoters / Directors / Principals / Chairpersons /Academicians / Senior Management / Administrative Heads & Decision makers of Universities /Higher Educational Institutions (Public & Private)Media... and many more.

Main highlights of the conference: Nano -Polymers and Nanotechnology, Polymer Electronics: Optics, Fiber and Lasers, Polymers in Petroleum Refinery, Polymers in Medicine, Applications of Polymers, Recent Advances in Polymer Chemistry, Future and Scope for Biopolymers & Polymer chemistry, Organic Plastics,3D Printing Polymers, Bio-Catalysis in Polymer Chemistry, Polymer Science and Applications, Oils and Bio-Inorganic Materials, Biodegradable and Bio-Chemical Polymers, Polymer Engineering and Technology and many more

Polymer Chemistry will focus on many interesting scientific sessions and covers all frontier topics in polymers which include Basic Principles in Biopolymers and Bio-Plastics, Synthetic and Green Polymers, Polymer Science and many more from across the globe, it held with the discussions on bio-polymers, polymer chemistry. It is also a great platform for researchers, practitioners and educators to present and discuss the most recent advances, trends, and concerns as well as practical challenges and solutions adopted in the fields of current research and applications of polymer chemistry."3rd World Congress on Bio-Polymers and Polymer Chemistry" to be held during February 24-25, 2020 at Rome, Italy provides prompt keynote presentations, Oral talks, Poster presentations and Exhibitions, Sponsorships. Europe is a major consumer of biopolymers in the world biopolymers market. Attributing to the laws and regulations in this region, Europe is estimated to remain dominant throughout the forecast period. After Europe, North America is forecasted to account for a major share by 2016 end.

The Young Researcher Award is an initiative with the intention of supporting young researchers. This award recognizing for Masters\Ph.Ds.\ Post degree thesis work presentation who will present their projects and thesis that has been implemented to improve long run excellence within the field of Polymers & Bio-Polymers. The selection Process will be done by the Organizing Committee.

It is specially designed for postgraduate students (MSc, PhD...) designed to provide students with the opportunity to present their work in a friendly, supportive forum and to receive feedback from mentors and peers.

Other important skills: you need to be a good scientist includes scepticism, creativity, problem-solving, self-management, and objectivity.

Benefits:

- Best Young Scientist Award
- Best Masters/Ph.D./Postdoc
- Learn more about career development & latest research tools and technologies.
- Foundation for collaboration among young researchers\scientists
- To interact and share ideas with all the eminent personalities
- Student fellowships
- Felicitated with Certificate

- Chance to attend other Allied conferences with discounted rates.
- Chance to meet experts in your field of expertise
- Chance to distribute full length papers in our supporting Journals

Importance:

To recognises the fundamental importance of scientific research in the development of our understanding of the growth of forests and their value to society and our planet.

Rules of Eligibility:

- Entrants must have been completed their PhD\MSc.
- The research described in the entrant's thesis must be in the field of Polymers\ Biopolymers.
- The prize will be awarded without reference to sex, race, or nationality.
- The topic must suites to the conference theme
- All presentations must be in English
- Updated Curriculum Vitae
- Submit an abstract as first author
- The candidate should give an undertaking that the paper being submitted has not been published in any journal or presented in the other Conference / Seminar / Symposium or submitted for consideration of any award.
- Young Scientist can present only one paper in any session

The Young Research Forum offers for all young researchers and scientists and students for possibility to meet and discuss about their own research topics and methodologies to share and develop their ideas, learn from each other and gain knowledge from eminent speakers. **Role of Young Scientist:**

Young scientists will play an important role in today's research and innovations systems. Understanding how young researchers can achieve and contribute to the knowledge landscape, and what obstacles they encounter within the process across the globe.

Participation in the symposium is open to all graduate students who are graduates in field of Polymer Science from certified universities. Applicants must be recent graduated students.

Our Allied Academies categories seek to acknowledge Scientists, Researcher, Professor, Industrialists, and Students in various scientific fields who are making an outstanding contribution to the world of Science for the better and healthy future.

It would be an exposure to the young and enthusiastic researchers to explore the leading edge research and technology within the interdisciplinary approach. YRF will also give them an opportunity to strengthen their research also as academic network with other experts both in their core and interdisciplinary areas.

The application package must include:

- Updated Curriculum Vitae
- Course completion certificate
- Paper work for presentation

Note:

Last date for initial participation January 31-\$399

Last date for initial participation February 29-\$499

Last date for initial participation March 31-\$599

Last date for initial participation April 30-\$699

For more details about the conference please visit our website: Polymer Chemistry 2020

The conference also provides delegates/Listener opportunity to share and explore ideas and views in the area of Polymer Science. And avail group discounts on registration.

We do very much hope that you will be able to accept this invitation and looking forward to meet you in Spain next year.

With best regards,

Catherine| Program Manager

Polymer Chemistry Congress 2020
