Webinar on Green Chemistry

Webinar on Green Engineering is to bring together international researchers from industry and academia, from authorities and other institutions, from all over the world, to convey the information and share the latest developments across the immense and distinct fields of sustainable chemistry through virtually, on october 9th, 2020 at 10:00 AM (UTC +5:30) which is based on the theme "Engineering in Chemistry, a Solution to Daily Problems"

Scientific sessions green engineering webinar includes Chemical toxicology, combating environmental pollution, atom economy,

design for energy efficiency.

Presenters at Green engineering webinar:

- Takashiro Akitsu, Japan,
- Mustafa Zafer Ozel, England, UK
